Serious troubles have
small beginnings—and most
of them are traceable to
disordered liver or kidneys.
Pains in the back, head-
ache, loss of appetite, rheu-
matism, constipation—
these are the signals of dis-
tress.

TYREE'S BUCHU AND
HOPS is what you need
—and ALL you need. It
will regulate these organs
so they will continue their
normal functions—and if
they are not performing
now as they should it will
correct whatever is wrong.
The great advantage of
TYREE'S BUCHU AND
HOPS is its wonderfully
quick action—without up-
setting the system. Its
gentle laxative principle
renders constipation impos-
sible.

to the hearts of all. It will be pre-
sented again tonight for the last
time.

For three days, starting Monday
with a special matinee Wednesday,
the Lewis-Oliver players will offer an
elaborate production of George Ar-
liss's success, "The Devil."

The lesson the play teaches is ter-
ribly true. The plot moves swiftly,
and so deft is the author's touch, one
hardly realizes the tragic underlying

force of his motive until the last cut-
tain has fallen. It is in every sense
a remarkable play for it is profound,
well put together, there is subtlety in
the dialogue and the psychology, and
the story grips from the first.

Baroness De Witz, the actress of
whom the King of Denmark said "She
is the most beautiful girl of my king-
dom," will appear in the Mutual pro-
gram in a three-part Than-O-Play
release entitled "The Valkyrie."

OIL AND GAS DEVELOPMENT OF TRI-STATE

Latest Reports of Operations in
West Virginia, Pennsyl-
vania and Ohio.

Pittsburg oil operators have dis-
posed of large producing properties in
the Crofton field in the Red River
county, Louisiana. The properties
included in the sale are the Pennock
Oil Company, with a production of 2,
000 barrels a day, the Parker and
Edwards Oil Company's holdings
with a production of 1,700 barrels a
day and the Atlas Oil Company of
Louisiana's 1,500 barrels a day and
the combined sales approximated
\$2,000,000.

The Dorseyville field, in Allegheny
county, Pa., continues to be the
center of attraction in the eastern fields.
At thirty-three feet in the thirty-foot
sand the Russellville Drilling Company
got the lower pay and drilled two feet
in and the well began to fill up with
oil, and has 1,600 feet of fluid in the
hole. They shut down to erect tank-
age and are expecting to get an in-
crease in production when they drill
deeper into the lower pay.

Due south of the Russellville com-
pany's well Alexander Walley has
drilled his test on the McFarland
farm twenty-six feet into the sand
and developed a good show of oil.
When the well began to make a show-
ing drilling was suspended to move
back the boiler. This well and the
Russellville company's well on the Sel-
bert farm will be drilled in today.
The American Natural Gas Com-
pany's No. 2 on the J. Haas farm is
holding up at 380-barrels a day and
the National Oil and Gas Company is
due to get the sand at No. 4 on the
V. J. Robinson farm next Tuesday.

Shot Gasser Turns to Oil.
On Willis creek, Big Sandy district,
Kanawha county, W. Va., the United
Fuel Gas Company met with a sur-
prise when it shot its old gasser on
the G. E. Rucker farm. The well
was drilled about ten years ago, and
was a good gasser in the Big Injun
sand. The supply having been ex-
hausted it was decided to give it a
shot and the result is a six barrel
producer. As an oil producer it is
purely a wildcat, located two and
one-half miles northwest of the same
company's test on the V. J. and J. M.
Fleishman farm. It will likely call
out some new work in that vicinity.

Fair Producer in Tyler County.
On Bentz run, Union district, Tyler
county, Schickel and Freid drilled No.
35 on the J. S. Wells farm into the
Maxon sand and developed a strong
gasser. The well has not been shot
but is spraying oil at the rate of

twenty-five barrels a day. This loca-
tion is in old territory.

Near Bearsville, Centerville district,
Tyler county, the Knox Farm Oil Com-
pany has completed No. 4 on the W.
E. Knox farm and has still a better
producer. He well has been drilled
into the top of the Big Injun sand and
is reported flowing at the rate of ten
barrels an hour. This location is north-
west of the Pure Oil Company's pro-
duction on the Riggs farm.

About two miles south of the Stout
field in New Milton district, Doddridge
county, the Carter Oil Company com-
pleted No. 49 on the S. W. Stout farm
and scored a duster. On Laurel creek,
Smithfield district, Boone county, the
South Penn Oil Company has started
to drill a second test on the M. O.
Griffith farm.

Brought Back.

In the old Squaw sand development
in Elk district, Kanawha county, the
South Penn Oil Company's No. 1 on
the J. E. Dunham farm and the Walnut
Creek Oil Company's No. 11 on the
Goshorn farm had stopped producing
and each was given a shot and re-
sponded with a production of two and
ten barrels, respectively. In Butler
district, Hancock county, located in
the Turkey Foot field, Hudson Bros.
completed No. 10 on the R. Ferwater
farm and have a duster.

Southeastern Ohio.

On the Ohio side in the Reas Run
district, Independence township, Wash-
ington county, J. H. Higgins and Com-
pany drilled a test on the Knowlton
farm through the Squaw sand and will
have a light pump. In the same dis-
trict, E. W. Thornhill is drilling No. 6
on the M. Thomas farm.

SOCIALISTS TO ORGANIZE FOR THE YEAR

Of 1916 and a Special Organi-
zation Committee Has Been
Chosen for Local Field.

"Organize for 1916" is the slogan
adopted by the Socialist party of this
city, in their effort to revive interest
in the work usually engaged in by
that organization.

During the summer months there
was shown the customary inactivity
but now, that the cooler season is at
hand, enthusiasm and efforts are re-
newed.

A special organization committee
has been chosen, and under this lead-
ership forty solicitors have been
placed in the field, seeking to build
up the organization by getting into it
many men who vote the Socialist

ticket and who have never been dues-
paying members of the party.

In the arrangements proposed and
undertaken, the local organization
has been granted jurisdiction over an
extended territory in and about
Clarksburg, which would, if incor-
porated, comprise Greater Clarks-
burg. A charter for this "One Big
Local" idea is being applied for, and
all who sign the application blanks
will be known as "charter members."

In the new territory given over to
Greater Clarksburg there is com-
prised the municipalities of Adams-
ton, Northview, Staley Heights and
Broad Oaks, and the following addi-
tions: Tin Plate, Industrial, Union
Heights, New Fair Grounds, Nor-
wood, Grassell and Monticello.

In the past there has been a local
organization for Clarksburg and sepa-
rate local organizations for all the
incorporated towns. Just how to
manage with the additions to Clarks-
burg, where the membership was too
small for a local, has given the So-
cialists considerable thought and at-
tention, but it is believed that the
idea of "One Big Local" will meet
with popular approval and support,
and as explained by a prominent
member of the party will be bene-
ficial to all, for its is proposed that
committeemen, on an equal basis with
those from each of the five wards in
this city, will represent their consti-
tency in the central idea.

NOTICE.

I have sold my interest in business
of Carr and Sigley, meat shop, located
at North View. All outstanding bills

C. E. CARR.

Mr. G. H. Duthie, secretary of the
organization committee, said: "Our
plan, if carried out, will not only
make us numerically and financially
stronger, but will also increase our
facilities to propagate the ideas of
Socialism and permit of much more
effective campaigns in the municipal
elections. It is proposed that the
increased local shall take charge of
and vigorously push the municipal
campaigns, making, for instance, the
campaign in Adamston, the concern
of every Socialist in the organization."
